SKILLS

Front End: HTML, CSS, BootStrap, Tailwind CSS, JavaScript, TypeScript, JQuery, Vuejs.
Back End: PHP, Laravel, C#, ASP.NET, Nodejs.
Databases: MySQL, MSSQL, PostgreSQL, SQLite, Mongo.DB.
Package Managers: npm, composer, NuGet.
Other: Jira, Slack, Git, Github, Gitlab, Docker.

EDUCATION

Bachelor of Electronic and Communication Engineering

Higher Institute New Damietta (NDETI) • New Damietta, Egypt • September 2015 - July 2020

COURSES & CERTIFICATES

Full Stack Web Development

Information Technology Institute (ITI) • Mansourah, Egypt • April 2021 -September 2021

C and Embedded C Programming

National Telecommunication Institute (NTI) • September 2020 - October 2020

PROJECTS

Short Links

Sustainable Star • Now 2024 - Present

- It's a Microservice that Take the Large Url, and generate a customize short url.
- Generate Customized QR code, to ease access.
- Apply Zero Trust Layer to make Service very secure.
- Design ERD, Build DBs Build Service from Scratch,

SFB

Sustainable Star •https://client.sfb-app.com • April 2024 - Present

- Build RESTful APIs to support a Front End and Mobile Application, ensuring efficient communication between microservices.
- Integrate and manage third-party services such as Mailchimp, Zendesk, Slack, Google, Microsoft, and Discord.
- Build Full (Feature, Unit) Test Cases, to ensure that the Project is stable after develop any new feature.

Simaat

Simaat Platform • https://dev.simaat.sa • Jan 2024 - Apr 2024

- Developed and deployed a custom RESTful API to support a mobile application, ensuring efficient communication between the app and server-side functionalities while prioritizing performance and security.
- Collaborated closely with technical support teams to troubleshoot and resolve issues related to the PHP-based API, ensuring optimal performance and reliability for mobile application users.
- Implemented comprehensive documentation and version control practices for the PHP API, facilitating seamless integration and future maintenance by the development team and providing clear guidelines for technical support staff to assist end-users effectively.

Tiras

Simaat Platform • https://beta.tiras.app/en • Nov 2023 - Jan 2024

- Developed and maintained a comprehensive property listing platform utilizing PHP, Laravel, and MySQL, facilitating efficient management of property data, images, and user interactions.
- Implemented robust search and filtering functionalities using Vue.js, enhancing user experience and enabling seamless browsing of property listings based on various criteria.
- Integrated secure user authentication and authorization features, ensuring data privacy and confidentiality for both property owners and prospective buyers on the platform.

PROJECTS

Logistics (WMS)

Silky Systems • https://logistics.sandbox.silkysystems.com • Nov 2022 - Oct 2023

- Reduce product retrieval time by 20%, and minimize errors in product location by 15%.
- Developed a webhook delivery success, and ensure webhook response time be under 500 ms.
- Resolve reported issues, and decrease the recurrence rate of fixed issues by 15%.
- Achieve a code readability score of at least 90% on a static analysis tool, and reduce code complexity by 20% through refactoring.

Market Place

Silky Systems • https://market-place.silkysystems.com • Jul 2022 - Oct 2022

- Facilitate the sale and purchase movement between the vendor and the supplier.
- Achieved a commendable 20% increase in application uptime

Significantly enhancing overall system reliability.

Accounting

Silky Systems • https://acc.stage.silkysystems.com • Jan 2022 - Jun 2022

- Add WMS inside the system, and design more than 70% from Design and Structure.
- Facilitate product movement within the warehouse.
- Help improve system speed by 15%.

Al Badr Sales (POS)

Freelance • https://albadrsales.com • March 2022 - May 2022

- Upgrade more than 10 pages from native php to laravel.
- Convert Many of Sql Queries to Query Builder and Eloquent.
- Designed and Edit more than 6 Bills and Reports based on clients' requests.

Twishop (e-Commerce)

Twision • Jul 2021 - Dec 2021

- Developed and implemented a feature-rich, mobile-responsive e-commerce platform as the company's flagship product.
